Re: Change in Financing
Notification Letter Project Alteration
CON Permit # 17-022
HSHS St. Anthony's Memorial Hospital, Effingham
Ambulatory Care Center (ACC) Project

Dear Ms. Avery,

On December 13, 2017 the Hospital Sisters Health System (HSHS) submitted a change in financing notification letter indicating its intent to partially fund the ACC Shelled Space completion project cost with bond proceeds rather than fully fund the altered capitalized project cost (\$6,740,820.00) with cash and securities, as originally approved by the IHFSRB Chair on July 28, 2017.

Our Alteration Notice was acknowledged by the chair in correspondence dated December 15, 2017.

Subsequent to the original notification, and its acknowledgement, HSHS determined it was not prudent to follow through with the proposed change in financing; hence, we will revert to the originally approved Source of Funds and finance the entire Shelled Space Finishing / Completion project with cash and securities. This change has no impact on the approved project's scope. As well, HSHS continues to be an AA-rated organization.

Section 1130.750 of the Ill Administrative Code, Alteration of Post Permit Projects, states certain alterations require the permit holder to only submit a notification letter as described in this referenced section. We believe this project alteration, based solely on a change in financing, is consistent with a required project alteration notification. Finally, we understand this notification letter requires no filing fee and will not be heard by the IHFSRB.

If you have any questions regarding this project alteration notification letter, please contact me by e-mail at ann.carr@hshs.org or by phone at 217-492-5832.

Sincerely,

Ann M. Carr
Vice President and Treasurer
Hospital Sisters Health System
